

Stimulus Control

Name: _____

Learning Activities – Provide Your Own Examples

Let's say that you have a ferret and you train your ferret to jump in your lap when you whistle. However, you do not want your ferret to jump into someone else's lap when they whistle. Describe how you might undergo discrimination training with your ferret so that it only jumps into your lap when you whistle. In your description use each of the concepts in an appropriate manner.

Concepts: discrimination training, discriminative stimulus, S-delta.
